JL —1996-compliance;MFO files 3/16/77

Attached is an extra copy I've made of serial 3047.

3044 is relevant.

My purpose with this is for Green at the proper time.

This says that all the real files are ordered sent to Memphis, which is where the search has to be made.

We asked for that, earlier one.

Whatix is also interesting is that the next month, when the reports were released to Civil Rights and the B'ham AUSA but to him only.

There was a Memphis prosecution, a charge there and a grand jury indictment then expected momentarily.

So no copy goes to Memphis of the investigating reports.

Where the prosecution needs them.

There are other relevant serials in this general number range.

My point in this is not only to get the Memphis FO files searched and delivered but to make enough of a record for you to present it to Green.

But hold off on it for now.

HW
